COOPDECH® Video Laryngoscope Portable VLP-100 (Video Laryngoscope)

COOPDECH VLP, a CCD camera and LCD monitor-mounted laryngoscope, allows zoom display of the oral cavity and assists tracheal intubation. Economical rechargeable battery is used. The residual battery life is indicated in color. The dedicated blade is autoclaveable and reusable. COOPDECH VLP complies with the standard for electromagnetic compatibility (EMC Standard).
